which were then attributed to specific properties of living protoplasm, but which have now been shown to be explainable by simple physical and chemical laws.

In conclusion Dr. Loeb said: "We recognize that there are still great gaps in our control of life phenomena, and that for the present time there is no danger that the biologist will not have an opportunity for important discoveries. We cannot allow, however, that there is any obstacle to our complete control, and in consequence of our knowledge of life phenomena to be the great problem of scientific investigation, will come to the same conclusion. Authors who have placed too great faith in some hypothesis, or have fallen victims to the poor or wrong interpretation of the facts. It is self-evident that the pessimistic view can only hinder, but never further the progress of science."

BURDICK'S LIFE BLOOD

SHED BY A WOMAN.

BUFFALO POLICE COMPLETING THE CHAIN OF EVIDENCE.

Say That Murderer Aroused to Prey by Loss of His Love, Beat Out His Brains and Then Stole Letters Written to Him.

(BY THE ASSOCIATED PRESS—A.M.)

BUFFALO, N. Y., March 5.—There were no developments throughout the night in the Burdick murder case. The officers claim to be absolutely certain that the murder was committed by a woman; that they know the woman, and that they can make an arrest the moment their chain of evidence is sufficient to secure a conviction.

The theory of the police is that the suspected woman, finding that Burdick's affection for her had begun to cool, and there was talk of his marrying another woman, after securing his divorce, made an appointment with Burdick at his home. On her arrival he conducted her into his cozy corner, where intrusion was least to be feared. The lunch on the table was a trap. He visited, no one knows how long. His indifference toward her was not concealed, and, awaiting her opportunity, she struck him down and in her frenzy and passion beat out his brains. Then she left. Before leaving, she searched the table for the letters which she had written to him. Finding them, she turned out the gas and stole away.

Finding them, she turned out the gas and stole away.

"I absolutely refuse to let any man serve," said Speckert, "who was born under the sign of Cancer, Scorpio, or Pisces. I will not take any one born between June 21 and July 22, because a man born at such a time will pay no attention to argument. Neither is a man born between October 22 and November 22 eligible. SLOPE BRIEFS.

HAWAIIAN COALS FOR MINA.

SAN FRANCISCO, March 5.—Two hundred thousand dollars, consisting of quarters, half dollars and dollars in Hawaiian coins, were brought from Honolulu by the steamship City of Peking. This is said to be the largest amount of island money yet received in any one shipment for recoinage into United States money. When the mint gets through with it, the money is to be returned to Hawaii.

THREATENS BUDS WITH DEATH.

REDDING, March 5.—The peach and almond trees in the vicinity of Redding, which were lured into bloom by the warm weather of the past few days, were covered with snow this morning. If the weather turns to freezing cold, great damage will be done. This late fall of snow is another strange incident in a most extraordinary season. Although relieved with fresh storms, the season's rainfall is but 24.85 inches, or over five inches less than last year at this time.

ON TRACK OF BULLFAN.

SAN FRANCISCO, March 5.—The police are close on the track of the thief of thieves that invaded the home of T. V. Maloney, 645 Hayes street, in search of money and jewels, that they believed were scattered there. The Alamo brand and cut by his fall, and almost dead from exposure. It is thought he was temporarily insane.

PERPETUAL MAINTENANCE BEQUESTS.

SAN FRANCISCO, March 5.—In a decision rendered today the Supreme Court declares that all bequests providing for the perpetual maintenance and care of graves, burial plots, or private monuments, are null and void. The question has never been previously decided in the courts of this State. Such funds in the hands of individuals, town or city boards of trustees or societies, will now legally revert to the estates of the various testators.

OLD PLAY REPRODUCED.

STANFORD UNIVERSITY, March 5.—The first performance of "The Knight of the Burning Pestle," given here tonight under the direction of the Stanford English Club, was successful in every way. About two thousand people crowded the big assembly hall, occupying every available seat and all standing space. The play

was reproduced just as it was enacted in Shakespeare's time.

OATS FOR FINLANDERS.

PORTLAND (Me.) March 5.—The Elder Dempster steamer Montauk, which sailed today for Hango-Finland, carried the largest cargo of oats ever taken out of this port about 300,000 bushels. This cargo goes to Hango-Udd, for the relief of the starving Finlanders.

FIRE AT LA CANANEA.

LA CANANEA, March 5.—The large store and warehouse of Southwestern Commercial Company, was destroyed by fire last night. The company has headquarters at Los Angeles, and a number of stores throughout Sonora and Arizona.

JUMPED THROUGH CAR WINDOW.

SEATTLE (Wash.) March 5.—Frank Kent, a miner of Nelson, B. C., jumped through a window of the Northern Pacific limited train near Kent late last night, while the train was running at a high rate of speed. He was found beside the track this morning, badly bruised and cut by his fall, and almost dead from exposure. It is thought he was temporarily insane.

SPORTING RECORD CHAMPIONSHIP FIGHT SURE.

Articles Signed at Baltimore
by Corbett and Delaney.

Contest to Take Place in July or
August in California.

Jockey Minder Suspended for His
Recent Rides—Daily Deceased.
Baseball Programmes.

BY THE ASSOCIATED PRESS.—P.M.
BALTIMORE, March 5.—James J.
Corbett and Billy Delaney, the latter
representing James A. Jeffries, met
this evening at a hotel here to sign
articles for the heavyweight champion-
ship. It was agreed that the contest
shall take place in California in July
or August, 1903, under the auspices
of the athletic club offering the large
prize. The men are to spar
singly rounds for a decision; the win-
ner to receive 75 per cent. of the purse,
the loser to take 25 per cent. Bids are
to be sent to Harry Corbett, 200
Franklin street, Baltimore, by a certi-
fied check for \$500; duplicate bids to
be sent to Tom O'Rourke in New York.
The contest is to be opened
April 1, 1903.

The signing of the contest must
be a certified check for the entire
purse. It was agreed that the con-
testants should appear in the ring
wearing the colors of the club
offering the prize. The contest is to
be held at the time the color of the club
is decided upon. There was considerable talk
between Corbett and Delaney as to
the location of the contest. Corbett
wished to have it in New York, but
Delaney, who is the manager of the
contest, is of the opinion that it should
be held in California.

The agreement, which is rather
lengthy, is signed by James J. Cor-
bett and Billy Delaney. The witnesses
are Thomas Corbett and Robert Delaney.

OAKLAND STEWARDS' DAY.
BY THE ASSOCIATED PRESS.—P.M.
SAN FRANCISCO, March 5.—The
steewards of Oakland today suspended
Jockey Minder for his ride on Evander
and several other efforts recently,
among them that on Matt Hogan yester-
day. Evander, owned by J. J. McLaughlin,
was the best horse in the city for the
last race, but he was not in the net-
ting, while the money went in
the other direction. The race was
run on a very hot day, and the
ground was very dry. The track was
very fast, and the horses were
disappointed and placed this for car-
rying the change, but the track was
very fast, but the weather was
very hot, and the horses were
disappointed.

PACIFIC COAST SITUATION.
BY THE ASSOCIATED PRESS.—P.M.
SAN FRANCISCO, March 5.—Some-
thing definite is expected to develop in
a day or two from the uncertainty
which has recently been developing in
the baseball situation. Whether there
will be war within two Coast leagues
or that the dove of peace will hover
over the no big association, and a
smaller league in the North, is a prob-
lem that has been discussed by the
followers of the game for weeks past.

President Lucas of the Northwestern
League has been here for several days,
and the object of his visit has been
summing the local people. The rumors
that he has been seeking the as-
sistance of capital to float a rival as-
sociation have been given the color
of truth by the admission of people
said to have been approached, but it
is not known that he has been nego-
tiating for ground upon which to lo-
cate a park.

It was expected that the arrival to-
night of Thomas Hickey, president of
the American Association, would add
interest to the situation, but he did
not appear at the hotels where tele-
grams were awaiting him. Henry Har-
riss, manager of the San Francisco
club, does not believe that there will
be a rival league started, but asserts
that if the northern people do declare
war, that there is an abundance of
money at this end, to make the fight
a lively one.

CHURCH SQUABBLE POSTPONED.
ATLANTA (Ga.) March 5.—After a
night of stormy debating the two fac-
tions of the Baptist Church here, the
Church (white) of this city, which be-
came involved in bitter dispute at a
conference by the church, adjourned to-
day by mutual agreement, and without
taking any action. The dispute was
caused by the claim that one faction
of the church charged that the pastor,
Rev. W. J. Holtzman, had interfered
with the affairs of the conference not
under his jurisdiction.

AT THE CITY HALL.
GARBAGE CONTRACTORS
NOW WINK TO QUIT.BOARD OF HEALTH CONSIDERS
WAYS AND MEANS.

Resolution Adopted Asking Conference With Council to Plan for Purchase of Crematory and for Selection of New Garbage System.

Franklin & Alexander are planning to escape the clutches of the garbage contract. The plan of the contractors to secure release from their agreement with the city which was nullified in the Times a week ago, came to the surface yesterday at a special meeting of the Board of Health.

Whatever the public may think of the present service, it is certain that the contractors are tired of their bargain and desire to sell their cemetery to the city. It is stated that the firm is using money under the contract, as the garbage contract has proven more expensive than was expected when the contract was made. Under the contract \$2.70 a month is paid for garbage removal and cremation.

With the first intimation that the Board of Health intended to enforce the binding provisions of the new contract the contractors took up their hands and refused to pay. The city is now in some adjustment of the difficulty. In the hope of selling the crematory to the city a trip of inspection was arranged, and the city officials visited the plant as guests of the contractors last week.

At the session of the Board of Health yesterday, Dr. Williams, started the discussion of the question by declaring that the city should own the garbage crematory.

"The present system is not satisfactory," he declared. "Endless difficulties will be encountered in the enforcement of the contract. While to per cent, the complaints are right and just, the remaining ten per cent, are prompted by the misrepresentation of the public. The city should own its own crematory and collect the garbage," declared Dr. Johnson.

"How would a scavenger system do?" inquired the Mayor. "The scavenger system of Oakland and San Francisco, in Oakland the crematory receives the garbage and cremates it for a certain sum per year. Anybody can be a scavenger by the way. The city should own the crematory, and the collectors make (term) agreement with the property owners and housekeepers."

"Our system is wrong," continued the Mayor, after the scavenger system had been explained. "The city should own the crematory, and the collectors make (term) agreement with the property owners and housekeepers."

"Are the contractors not responsible? Can we not make them live to their contract?" asked Dr. Salisbury.

"I believe we should call it all off," replied the Chief Executive. "The city should own the crematory, and city employees should run it. That we should install a scavenger system."

Dr. Salisbury maintained that there would be some trouble with the garbage collection under any system.

The Mayor said he is opposed to the city's purchasing a new system and was for the collection of garbage, and he recounted the results of an attempt to own the horses and wagons in use in the street department some years ago, when Mayor Sawyer was in the Council. The Mayor said there was much "leakage" at that time, and that men could not be secured who would look after the city's interests properly.

"Well," said Dr. Salisbury, "if the present contractors made their bid to work with the idea that they would not have to live up to its provision, it was very wrong."

"Of course we can't tell how much money they are losing," said the Mayor, "but I know they are sick of the contract. The city does not necessarily have to purchase the present crematory, but I am informed that it is large enough to handle all the garbage from the city for some time to come. It is a new addition to a crack-jack, I'm sure. Let's adopt a resolution and address to the Council saying that the present system is wrong, and asking them to get it right."

"I know that the contractors would be very glad to sell the crematory at once," said Dr. Johnson.

"Do the contractors say that they can't collect the garbage under the present contract?" asked Salisbury.

"Yes, I do," declared two of the other board members.

"Franklin told me he would be glad to get rid of it," said the Mayor. "I move that we send a resolution to the Council," said Dr. Hitchcock.

"Suggesting that the present system of garbage collection is inefficient and asking a conference of the Council with the Board of Health to adopt a more perfect method or system, and that the city investigate the matter of purchasing the present crematory in order to give the Board of Health entire control of the garbage cremation."

This resolution was unanimously adopted.

The provision in the contract under which the Board of Health expects to take action is as follows:

It is further agreed that the city of Los Angeles shall have power to rescind and annul the contract, and to terminate all obligations on its part to said contractors hereunder, at any time during the term herein prescribed, upon the determination of the Board of Health of the city of Los Angeles, and that said contractors are not performing the

terms and conditions of the contract to its satisfaction."

Perhaps the action by the contractors to get rid of the undesirable contract was hastened by the action of the Municipal League in issuing a bulletin stating that the rights of the householders under it. A copy of this bulletin, together with a personal letter from Secretary C. D. Willard was filed with the board yesterday. The letter stated that a similar copy had been furnished the contractors.

Although the contract provides penalties for failure to collect garbage, no suggestions have ever been made by the Board of Health. Doubtless the contractors took the action of the Municipal League to mean that pressure would be brought to bear to enforce the contract to the letter.

I had hoped that the Board of Health would enforce that contract," declared President Bowen of the Council. "It is a good contract, and the city ever had. It can be enforced and good service should result. I know practically nothing about this latest move, and I cannot say what view the Council will take of the plan to annul the contract now."

DEAD RATS SCARCE.

Thus far only sixty-one rats have been presented in response to the offer of a bounty of 25 cents a head. This fact has occasioned the Board of Health concern, as the physicians insist that the extermination of the rodents is imperative.

section of the White monument. The letter was signed by the Mayor as chairman, and by the secretary.

At the time of the filing of the communication, only three members of the board were present. So Chairman Longtin continued the matter until next Tuesday.

At the last election, the voters of the county put themselves on record as in favor of placing the statue on the Courthouse grounds.

FOOTPADS.

THEY'LL NOT CONFESS.

For brass-faced nerve the two thugs who held up the Pasadena car are the limit.

In the face of the absolute proof of their crime, they are trying to quirk out of going to prison.

It was supported all the time that they would plead guilty to the charge of robbery. Yesterday, however, they made a request to Judge Smith to have a lawyer appointed to defend them.

They will be arraigned this morning in Judge Smith's court.

Two other footpads, Joseph Ward and W. Stone, Henry, will be arraigned and will plead guilty. They are the pair who tried to kidnap August Niman and took off his wrist of his back, with his money and watch.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

MISS MORGAN'S FEELINGS.

Justice Young couldn't see how Miss Morgan's feelings were hurt.

He gave judgment in favor of Chief of Police Elton yesterday. Miss Morgan was suing the Chief for \$250 damages because Officer B. H. Baker arrested her on a charge of soliciting on the street. It was shown that the policeman had no grounds for his suspicion, although the woman was never prosecuted.

RAILROAD SUE. Milton H. Sexton, a boy of about 19 years, is suing the Southern Pacific for damages. He was hired to fill the engines with petroleum, and they gave him a torch in order to participate in the fall race meet here. He claims that the torch caused an explosion of the gas from the petroleum, and was seriously hurt. He asks for \$25,000 damages. The case is on trial before Judge Convey and a jury.

JUVENILE COURT.

Club Women Take Steps to Provide for Detention Office, So Law May Be Put in Operation.

A number of prominent women connected with the various clubs of the city held a meeting yesterday in the interest of the new juvenile court law. The women were active in bringing about the passage of the law, and now propose to compass the only obstacle that stands in the way of putting it in operation in Los Angeles.

The law provides for a detention officer in connection with the court, but provides no salary to compensate him for his services. They are now meeting at the College Settlement on Alpine street to discuss means for raising a fund for this purpose. It is their intention to provide for this contingency for at least the first year, and longer, if necessary.

The duties of the detention officer will be to look after children who seem to be in trouble, and to see that some legal tribunal, because of neglect or abuse at the hands of those responsible for them, and also to take charge of children who may have been arrested for petty crimes, and see to their proper disposition.

ROBERT SWINERTON DEAD.

Former Well-known Manufacturing Jeweler and Twelve Years a Los Angeles Resident, Passes Out.

Robert Swinerton, formerly a well-known manufacturing jeweler of this city, died yesterday at his residence, at No. 119 North Hope street, the immediate cause of his death being cerebral hemorrhage. He was 58 years of age, and a native of Douglas, Mo. Mr. Swinerton had resided in Los Angeles about twelve years, and the greater part of that time was a manufacturing jeweler, having an office at the Stowell Block, and later in the Byrne building, being in the latter he retired from active business in 1910, and was at No. 20 North Broadway, the younger brother being employed there. Two of the daughters, "Decened was a high Ma-on in the land of his birth, and several years ago he became a member of the South Gate Lodge, F. and A. M. He was also a member of the Sons of St. George, and was at the time president of the local lodge."

Quartette of Lissmen Pay Pious-Peculiar Friendship of Charlie for Sam—The Drama Must Answer—Gonzales Hearing Set for Monday.

A lot of union linemen undertook to run amuck at the Mug saloon, on South Main street, Wednesday night, but only succeeded in enriching the city treasury.

J. E. Casper, H. W. Dodge and G. D. Rankin were arrested and charged with disturbing the peace, the first two being fined \$15 and the last \$1.

About 11 o'clock last morning M. J. Keeney, another linemen, met a man named Johnson on Main street, who had taken a hand in attempting to quell the disturbance the night before, and Keeney demanded:

"What did you undertake to stop that fight last night? Are you a union man?"

Johnson thought he was none of Keeney's business, though a team laborer, he told Keeney he wasn't. With that another man stepped around Keeney, knocked Johnson down, and then got out of the way. Both the men called him vile names. Keeney was fined \$10.

Sam Watkins was before the Police Court charged with battery, because he had the temerity to knock down his friend, Charlie Melnhart, when the latter refused to lend him a dollar. When asked whether he was guilty, Watkins said:

"Well, guess I am; Charlie and me's always been good friends; I ain't nothin' but Charlie, and I don't know why I hit him."

Charlie, who is a well-known horse trader, was in court, but didn't go on the stand. When Sam was fined \$10, the money came from some business source, and Charlie's way, and Sam was told he could go. As he went toward the door he came up with his friend and said "Come on, Charlie, and the bossy pair went out link arms."

Minor Notes.

John and Alice Doran yesterday were taken to the charge of selling liquor without a license, and also to the charge of harboring Mary Doran, in a house of prostitution. Their attorney endeavored to have both the charges dismissed, but motions were denied and the defendants held in bail amounting to \$500 in the two cases.

The hearing of M. G. Gonzales on a felony charge, for receiving stolen goods, was set for March 1. The hearing of Morris Berkowitz on a like charge will be held Tuesday.

Dan McMichael, who is second to be arrested for holding up and robbing a man, was allowed to remain until Monday to plead. McMichael, one of his alleged pals, will answer on the same day.

FILIPINO CUSTOMS.

Returned Teacher from Luzon Tells State Normal School Students About the Island's People.

The people of the island of Luzon and some of their customs were the topics of an interesting lecture delivered yesterday afternoon by Walker in the assembly hall of the Normal School. Mr. Walker is a graduate of Stanford University, and spent several years teaching in a province about sixty miles northwest of Manila, and returned to California to recover from an attack of island fever.

His audience yesterday was composed almost entirely of students attending the Normal School, and they thoroughly enjoyed his recital of his adventures.

He began his address by saying that the method of teaching in Luzon was illustrated by object lessons, a teacher holding up a pencil, for instance, and giving its name in English until the pupils could associate the sound with the word with the article. Spanish was not spoken in Luzon, and the teachers were rude buildings without seats, the pupils sat on the dirt floor. They heard remarks about seven feet above the ground, so as to be away as far as possible from the dampness of the earth. The doors are made of bamboo and all the refuse of the house falls through into a cesspool, the resulting filthy condition of things being the cause of much of the sickness among the people. As a general thing they live in communities and are accumulation of filth occasionally causes an epidemic. The doors of the houses are not locked at night, the streets being drawn up. There are no dangerous animals or snakes in the country, Mr. Walker says.

Aginaldo is now practically a hoarder, according to Walker, with no business or influence, and it is supposed he lives on the money he received from Spain. Walker is of the opinion that the natives are much inclined to stick to their old ideas.
